Delta, UT 84624	:	Notice

COMMUNICATIONS WITH REGULATORS FOR PLEASANT MINE

As you have agreed in recent verbal discussions with BLM minerals regulators, a single point of contact is needed for issues pertaining to your Pleasant Mine exploration Notice and Pending Plan of Operations. Your exploration Notice, UTU-90229, and Pending Plan of Operations, UTU-88441, are located in aliquot parts of Section 31, Township 13 South, Range 19 West; Salt Lake Meridian. Please refer to this number in future correspondence. The corresponding Utah Division of Oil, Gas and Mining (UDOGM) case file number is S/023/0109.

Communications – Please direct your communications with BLM regulators to a single point of contact, Duane Bays, Natural Resource Specialist at Fillmore Field Office: (435) 743-3115. Your communications will be forwarded to other BLM specialists as necessary in order to carry out the BLM functions of minerals and environmental regulation on public land.

As you are aware, your mining claim and proposed operation have been the subject of a possible common-uncommon variety determination and dispute resolution procedures as described in the Code of Federal Regulations (CFR) under 43 CFR §3809.101. One condition of the Notice approval is that you cooperate on sample collection by a BLM mineral examiner, Michael Jackson. Please submit information and scheduling requests for the mineral examiner to the BLM representative at Fillmore Field Office. Depending upon the topic, the information will be directed to Mr. Jackson or another appropriate BLM specialist through BLM channels.

Required Financial Guarantee – You have previously submitted a Financial Guarantee of \$12,000.00 to the Utah Division of Oil, Gas, and Mining (UDOGM) in March 10, 2011, and that information has now also been communicated to the BLM. However, to legally operate and to conduct surface-disturbing operations, you must submit a Financial Guarantee to meet estimated

third-party reclamation costs at current 2014 rates.

This office has calculated a 2014 cost estimate, and consulted with UDOGM to update the financial guarantee. BLM and UDOGM have determined that the amount of \$14,600 is sufficient to meet all anticipated reclamation requirements.

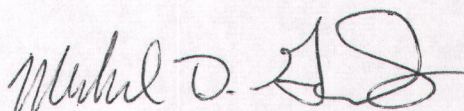

A financial guarantee in the total amount of \$14,600.00 must be filed and accepted by the UDOGM or the Utah State Office of the BLM, 440 West 200 South, Suite 500, Salt Lake City, UT 84101. You must receive written notification from both UDOGM and the BLM accepting and obligating your entire required financial guarantee before you may continue surface disturbing operations.

The types of financial instruments that are acceptable to the BLM for reclamation bonds are contained in Federal regulations at 43 CFR § 3809.555. Please contact Opie Abeyta, Land Law Examiner at the BLM Utah State Office, at (801) 539-4123 for further information on the adjudication of financial guarantees.

This decision does not constitute certification of ownership to any entity named in the Plan, recognition of the validity of any associated mining claims, or recognition of the economic feasibility of the proposed operations.

If you have any questions, please contact Duane Bays, Fillmore Field Office Natural Resource Specialist, at (435) 743-3115.

Sincerely

A handwritten signature in dark ink, appearing to read "Michael D. Gates", with a stylized flourish at the end.

Michael D. Gates
Field Manager
